## DESIGNED BY

Florian Runge

Gitan is a flared sans serif, reminiscent of engraving and stone carving. Sturdy and informal, the design features a moderate contrast. Cuneiform head serifs and deeply cut wedge terminals give Gitan a sculptural appeal – a quality desired for all things display. A rhythmic pattern and the classic construction make it sparkle in text.

# 10 Long Distance Walks

*Maintained by The New Jersey Hiking Society*

## A7 Waterfalls Walk

This walk offers some of the most dramatic waterfalls and wood-land scenery. The board-walk takes you alongside one of the wildest stretches of white-water on earth. It was selected as a Site of Special Scientific Interest (SSSI), due to the diverse range of geological structures and plants located there.

## P2 Pine Tree Trail

Located in the heart of the highlands, this trail takes you through all types of terrain, from lower elevations to peaks and ridgelines. It caters to all levels of experience, as it is divided into many accessible sections. The best time to trek is summer or early fall, when temperatures have been rising for a while and the snow has melted.

## P4 Fall River Trail

A real calf burner, this trail will make you work for some of the most exciting views in the highlands. Meandering along the Fall River, the route links up un-accessible valleys and mountain ranges. Prepare to get wet and pack a few extra pairs of socks, as you will need to traverse several streams on your journey.

**Karákóram (Asie):** druhé nejvyšší pohoří na světě – dosahuje výšky 8611 m (K2). Rozkládá se v pákistánském Kašmíru, Indii a Číně na ploše víc než 90 000 km<sup>2</sup>. Táhne se 500 km dlouhým obloukem severně od horního toku Indu rovnoběžně s Himálajem a představuje spojení Himálaje s Pamírem a Kchun-lunem. Je součástí alpínsko-himálajské soustavy. Pohoří se dělí na tři části: Velký, Malý a Severní Karákóram. Nižší polohy a karákóramská údolí patří k nejsušším místům na světě.
